Critical Thinking as a Global Citizen

• CONCEPT

STUDENTS VOTE FOR THE STORY

Rooftop Productions is dedicated to bringing innovative ideas to schools. In this programme, we are introducing "Immersive Theatre" (a popular contemporary genre) as an ideal way of delivering Global Citizenship education.

Students will participate in the show by voting on every decision that the protagonist, a puppet called Jackie, has to make. Jackie's decisions reflect the choices students will encounter in their everyday lives, especially in relation to their roles as global citizens.

• SYNOPSIS

VALUES AND ATTITUDES AS GLOBAL CITIZENS

As well as conveying the knowledge and understanding that a Global Citizen should have, we help the students develop a positive and engaged attitude towards making choices when they are put in a dilemma of self interest vs. their duties as a Global Citizen.

Using a combination of storytelling, songs and different kinds of puppetry, the following themes of 'Global Citizenship' will be encountered and explored in this professional production:

SOCIAL JUSTICE AND EQUITY

Concern for injustice and inequality; willingness to take action against inequity and to speak up for others

GLOBAL IDENTITY AND SELF ESTEEM

Belief that the individual can make a difference and that things can get better.

SUSTAINABLE DEVELOPMENT

The effect of our lifestyle on other people and the environment

DIVERSITY

Respect for difference and diversity, valuing all people as equal and different

• ROOFTOP PRODUCTIONS

Rooftop Productions was founded by Ivor Houliker and Michelle Li in 2014. We strive for artistic and educational excellence, developing local cutting edge artistic practice. We bring innovative ideas to schools' arts education programmes, and help students to engage with contemporary artistic practice in a fun and interesting way, extending their cultural and social awareness.

Our artistic directors are emerging artists in Hong Kong, with international training and experience making theatre throughout the world. Michelle is an experienced arts educator and professional director in Hong Kong, while Ivor has a multidisciplinary background as an international theatre artist. This gives us a great foundation to bring contemporary theatre education to schools in Hong Kong.
